the little shop with a big heart

who we are

The Up Shoppe is a store that offers new and gently used items at a very low cost.

The Up Shoppe is a program of the North End Women's Centre that

- builds employment skills in local women
- revitalizes Selkirk Avenue

We use the money from sales to keep the store open and support our employment programs.

We rely on donations from individuals and businesses. All donated items are put to good use.

programs we offer

Retail Training Program

This program offers on-the-job retail training for up to one year.

The program helps participants to:

- learn about retail
- build employability skills
- increase their life skills
- improve their self esteem
- build a resume
- search for a stable job

The program is for women who live in the North End or Inner City.

The Up Shoppe staff creates a positive and supportive work environment for all participants.

Fine Option Program

The Fine Option Program is a chance for women to gain work experience and work off their court ordered fines.

Participants work in a safe and comfortable environment.

The Staff encourages women to participate in the programs offered at the North End Women's Centre.

Referral Program

The Up Shoppe provides items to women who meet certain criteria and are referred by partner agencies or NEWC.

The program is for women who:

- had to suddenly leave home without their belongings or
- gave birth recently

Every purchase here contributes to programs that help women on their path of change.

Baby Layette. The perfect gift for new moms!
Combination of new and gently used baby items.
